Dreamweaver/site/new site

Site Setup for Mary Smith WebDesign Class

Site	A Dreamweaver site is a collection of all of the files and assets you use in your website. A Dreamweaver site usually has two parts: a local folder on your computer where you store and work on files, and a remote folder on a server where you post the same files to the web.
Servers	
Version Control	
▷ Advanced Settings	

Here you'll select the local folder and a name for your Dreamweaver site.

Site Name: Mary Smith WebDesign Class

Local Site Folder: /Volumes/4089301106/thumbdrive_webclass 📁

Confidential - for use by Melanie Stewart's students during class session
